

CHLA CONSENT FORM STANDARDS AND REQUIRED CONSENT LANGUAGE WHEN RELYING ON THE NMDP IRB

This document provides:

1. **General Instructions** about how to prepare and format the consent form.
2. **CHLA Required Language** for all CHLA consent forms reviewed by the NMDP IRB.

Version Date: April 8, 2024

GENERAL INSTRUCTIONS

Follow these general instructions to help facilitate better informed decision-making by participants and their families:

Use of NMDP IRB-approved study template consent:

- NMDP requires all participating sites to use the NMDP IRB-approved study template consent form without changing any formatting or wordsmithing any language. Do not insert any other language other than the required language below.

Children who Become Adults: Children who reach the age of majority (per CA Law, i.e., age 18, married, joined the armed forces, legal emancipation) during study participation must be re-consented as adults. The study team must describe the re-consenting process that will be followed to NMDP IRB. If the adult subject is incapable of providing consent, surrogate consent must be obtained per CA law.

REQUIRED LANGUAGE FOR ALL CHLA CONSENT FORMS

When CHLA agrees to rely on the review of the NMDP IRB, they are responsible for the review and approval of the research protocol and the consent document(s). The CHLA IRB does not review or provide oversight of the research. The CHLA investigator must ensure the NMDP IRB approves a consent document(s) that includes the information outlined below. Typically, this will require the CHLA investigator to make changes to consent documents (and recruitment material, as applicable) so that participants have the correct information to reach the CHLA site study team.

CHLA study teams should use this checklist when updating consent forms to identify required information that must be included in all consent forms for review by the Reviewing IRB. Consider whether these requirements also are applicable to assent forms, information sheets and recruitment materials. CHLA HSPP staff will review the site-specific consent form(s) and other materials to assure the following CHLA requirements below are met.

KEY

Highlighted Text should be customized to the study and document, as appropriate.

- Bullets under each header are guidance to aid in completing the section.

Text in blue are instructions to the editor.

Language in **[red text and brackets]** are prompts that may have additional guidance for the editor, to help determine what language to insert.

Instructions for the TITLE	EXAMPLE
<p>Required on all main consents, parental/legal guardian permission forms, and assent forms.</p> <p><input type="checkbox"/> Add “Children’s Hospital Los Angeles”</p> <p><input type="checkbox"/> Customize the title for the appropriate study population.</p> <p>Examples:</p> <ul style="list-style-type: none"> - Use “Consent” when the study includes adult subjects. - Use “Permission” when the study includes children as subjects and permission of their parent/guardian is required. - Use “Assent” when the study includes children as subjects. <ul style="list-style-type: none"> o Optional: age range can be added after ‘Assent’. Ex.: <i>Assent 14-17</i> - To help with consent burden on subjects, the main consent form, parental/guardian permission, and youth assent may be combined into one document. <p><input type="checkbox"/> For Pregnant Partner/Subject consent forms, please add in “Children’s Hospital Los Angeles” only.</p>	<p>CHILDREN’S HOSPITAL LOS ANGELES INFORMED CONSENT/PARENTAL PERMISSION/ASSENT TO PARTICIPATE IN A RESEARCH STUDY</p>
Instructions for the SUBJECT IDENTIFIER BOX	Subject Identifier box
<p>Required on all main consents, parental/guardian permission forms and assent forms.</p> <p><input type="checkbox"/> Add in the CHLA Subject Identifier box.</p>	<div style="border: 1px solid black; padding: 10px;"> <p>Subject’s Name: _____ Birth Date: _____</p> <p>CHLA MRN# _____</p> <p><i>[remove MRN line if N/A]</i></p> </div>

Instructions for KEY INFORMATION SUMMARY and Corresponding Language combined below for readability

Include a Key Information Section: The CHLA IRB requires a key information section for **all** consent forms. This section must come first and should include a concise summary of information that is relevant to why someone might or might not want to take part in the research. The entirety of this section should fit on one page of the consent document. **Note:** If the NMDP IRB-approved study template consent includes key information, do not add this information.

KEY INFORMATION SUMMARY

- Required on main consent form and parental/guardian permission form greater than 4 pages long, not including the signature page.
- Key Information Section **must** come after the Study and PI information on page 1 and should be a concise summary of information that is relevant to why someone may or may not want to take part in the research.
- The entirety of this section should fit on approximately one page.
- Do not add to Assents or Pregnant Partner/Subject consent forms.
- If the approved consent template already includes a key information section that touches on every header listed, even if the language is not verbatim, then this language does not need to be inserted.

Add in the following language, edit where appropriate:

You are being asked to participate in a research study. This section describes the key information that we believe most people need to decide whether to take part in this research. Later sections of this document will provide all relevant details of the research.

A person who takes part in a research study is called a research subject or research participant. If you are reading this consent form as a [parent/legal guardian and/or legally authorized representative, as applicable] “you” also refers to [“your child” (the research participant) and/or the research participant, as applicable].

What should I know about this research?

- Someone will explain this research to you.
- Taking part in this research is voluntary. Whether you take part is up to you.
- If you don’t want to take part, it won’t be held against you.
- You can take part now and later drop out, and it won’t be held against you.
- If you don’t understand, ask the research team questions.
- Ask all the questions you want before you decide.

How long will I be in this research?

Participation will last up to _____. [indicate max time of participation, if a subject completes all procedures]

Why is this research being done?

This research is being done to find out _____. [keep to a single sentence, such as "... the best way to treat people with Cystic Fibrosis." or "...how teens think about drug use in their social group."]

What happens to me if I agree to take part in this research?

Study procedures for this research are:

[Briefly in simple layman's terms list/describe the procedures that are **key** to the research and are most likely to affect someone's decision about joining. A bulleted list is acceptable. Examples:]

- Take a study drug every week by injection under your skin,
- CT scan(s). If you are not able to lie still during the scan, you will get some medicine to help you sleep.
- Complete questionnaires about your view on drug use in teens and young adults.
- Have blood drawn by inserting a needle into a vein or by using your port.
- Complete a diary every day to record your medication use and any side effects you experience,
- Let the research team record information from your medical record related to your condition and the treatment you receive.

Could being in the research hurt me?

The most important risks or discomforts that you may expect from taking part in the research are: [Briefly list up to 5 main study risks in lay-terms most likely to affect someone's decision about joining the study – pick only the most common risks. A bulleted list is acceptable. Examples:]

- Trouble breathing,
- Feeling uncomfortable answering personal questions about yourself,
- Chemo side effects, such as feeling tired, losing hair, and nausea,
- Allergic reactions,
- Irregular heartbeat.

Please see the RISKS AND DISCOMFORTS section below for a complete list of expected risks.

Will being in this research benefit me?

The most important benefits that you may expect from taking part in this research are:

[Briefly list the reasonably expected benefits to the subject most likely to affect someone's decision about whether to join the study. Keep it to one sentence if possible. If there are no benefits, state: "It is not expected that you will personally benefit from this research."]

What other choices do I have besides taking part in this research?

Instead of being in this study, your choices may include:

[List the major approved alternative options that are available that may be advantageous to the subject. If this is a study in which there is no disease or condition being treated, you can eliminate this section from the summary. If there are no alternatives to participation, this section can be omitted. Briefly list the alternatives: 2 maximum]

- Continue routine care or treatment for your condition.
- Join another clinical research study.

What else should I know about this research?

Other information that may be important for you to consider so you can decide whether to take part in this research is:

[Describe any additional information that may be important to know for this study, such as study requirements that may burden participants, example: an extensive study visit schedule, time away from home/work/school, overnight stays, etc. If this does not apply, this section can be omitted.]

Instructions for the CONFLICT-OF-INTEREST section	Corresponding COI Language
<p>Required on main consent forms, parental/guardian permission forms, and pregnancy consent forms.</p> <ul style="list-style-type: none"> Do not add to Assent forms. Placement of this section can be ahead of the Procedures section. Are there any NEW conflicts to add to DisCLOse? If yes, iSTAR must be updated and a new CMP will need to be generated. <p><input type="checkbox"/> If there is no Conflict-of-Interest section in the approved template, add in the header and language as appropriate to this study.</p>	<p>[If there is a conflict of interest identified by CHLA COIRC, include the required language as outlined in the Conflict Management Plan.]</p> <p>***</p> <p>[If there is no conflict of interest to disclose, include the following line:]</p> <p>There are no investigator conflict of interest to disclose to subjects.</p>
Instructions for the PROCEDURES section	Corresponding Language
<p>Per California state law, the following information regarding Pregnancy and HIV/STI testing is to be included, as applicable to the study.</p> <ul style="list-style-type: none"> Insert the applicable language into the Main Consents if the form will be presented to minors. Insert the applicable language into Parental/Guardian Permission forms. Insert the applicable language into all Assent forms. <p>***</p> <ul style="list-style-type: none"> Pregnancy testing: The appropriate statement(s) should be added if the study includes pregnancy testing of children. <p>***</p> <ul style="list-style-type: none"> HIV/STI testing: The appropriate statement(s) should be added if the study includes HIV/STI testing of children. 	<p>Pregnancy Testing</p> <p><input type="checkbox"/> Add to the Main Consent Form(s) and Parental Permission, when applicable: Your child’s pregnancy test results will not be shared with you.</p> <p><input type="checkbox"/> Add to the Assent Form(s): Your pregnancy test results will not be shared with your parent(s).</p> <p>***</p> <p>HIV/STI Testing</p> <p><input type="checkbox"/> Add to the Main Consent Form(s) and Parental Permission, when applicable: If your child’s HIV/Sexually Transmitted Infection (STI) test is positive and they are at least 12 years of age, we will not share the results with you unless your child tells us we can. If your child’s HIV/Sexually Transmitted Infection (STI) test is positive and they are under the age of 12, the results will be shared with you.</p>

	<p><input type="checkbox"/> Add to the Assent Form(s): If your HIV/Sexually Transmitted Infection (STI) test is positive and you are at least 12 years of age, we will not share the results with your parent(s) unless you tell us we can. If your HIV/Sexually Transmitted Infection (STI) test is positive and you are under the age of 12, the results will be shared with your parent(s).</p>
<p>Instructions for the COSTS section</p> <p>Required on main consent, parent/guardian permission form when/as applicable to the study.</p> <ul style="list-style-type: none"> • CHLA <i>prefers</i> the use of the following language in place of Sponsor's. <p><input type="checkbox"/> Insert the following language and edit as it applies to the research.</p> <ul style="list-style-type: none"> ○ If Sponsor requests a deviation in the language, please reach out to your Regulatory Specialist. 	<p>Corresponding COSTS Language</p> <p>Taking part in this research study might lead to added costs to you or your insurance company.</p> <p>The [name(s) of drug(s)/device(s)] will be provided to you at no cost while you take part in the study. [The next sentences should be included as applicable: You and your health plan/insurance company will need to cover the cost of the infusion/injection of the study drug. It is possible that [name of drug] may not continue to be supplied while you are on the study. If this occurs, the research doctor will talk to you about your options.]</p> <p>Most of the [tests, procedures, and/or drugs] provided to you as part of this study are routinely used to treat your [illness/condition]. You would receive these [tests, procedures, and/or drugs] even if you were not participating in this study. You or your health plan/insurance company will need to pay for this routine care. You will also be responsible for any co-payments or deductibles required by your health plan/insurance company. Some health plans/insurance companies will not pay the costs associated with these [tests, procedures, and/or drugs] because you are in a research study. If your health plan/insurance company will not pay these costs, you will have additional expenses from being in this study, such as the costs associated with treating side effects.</p> <p>If you have questions about your insurance coverage, or the items you might be required to pay for, please discuss them with the study team.</p>

	<p><i>Include the following for <u>all</u> cancer clinical trials:</i> The National Cancer Institute provides an online resource to help people participating in cancer clinical trials understand which services their insurance company is required by law to pay. This can be found at the website below or can be provided by the study team: www.cancer.gov or 1-800-4-CANCER (1-800-422-6237)</p>
<p>Instructions for the INJURY section</p>	<p>Corresponding RESEARCH SUBJECT INJURY Language</p>
<p>Required on main consent forms and parental/guardian permission forms for studies that are <u>more than</u> minimal risk.</p> <ul style="list-style-type: none"> • Do not add to assents or pregnant partner/subject consent forms. • CHLA <i>prefers</i> to use this language for describing treatment and compensation for research injury. • The CHLA HSPP Office will not approve language that: <ul style="list-style-type: none"> ○ Attempts to define a research-related injury (ex.: by specifically excluding pre-existing conditions and underlying disease) ○ Attempts to impose standards of behavior on participants (ex.: “Sponsor will pay your costs if you followed the study team directions”) ○ Attempts to limit the amount of coverage that will be provided (ex.: “Sponsor will pay your reasonable medical costs only,” or “Sponsor will not pay for lost wages”) ○ Includes legal or not lay-friendly terminology (ex.: “Sponsor will not pay if the investigator was negligent or engaged in willful misconduct”) ○ Discusses the Sponsor’s obligations versus the institution’s (ex.: “Sponsor will not pay if the study team did not follow the protocol”) ○ Appears contractual or is potentially exculpatory (ex.: “You agree that Sponsor is not responsible”) 	<p><i>Use this language for non-industry sponsored or unfunded studies:</i> If you think you have been hurt by taking part in this study, tell the doctor in charge of this research study as soon as possible. The study doctor’s name and phone number are listed on the first page of this consent form. CHLA will offer you the care needed to treat injuries directly resulting from taking part in this research. This care will be billed to you or your insurance company. You will be responsible for deductible and co-payments, or any costs not paid by your insurer.</p> <p><i>Use this language for industry sponsored studies:</i> If you think you have been hurt by taking part in this study, tell the doctor in charge of this research study as soon as possible. The study doctor’s name and phone number are listed on the first page of this consent form. CHLA will offer you the care needed to treat injuries directly resulting from taking part in this research. The sponsor will pay your costs for reasonable and necessary care if you have been injured because of taking part in this research study. If you receive Medicare/Medicaid and the sponsor pays for medical treatment for injury relating to your participation in this research, the sponsor will need to collect certain personal information about you, such as your name, date of birth, gender, social security number or Medicare/Medicaid identification number and information related to this research study. By signing and dating this informed consent form, you are giving permission to the sponsor to collect your personal and treatment related information and report it to the Centers for Medicare & Medicaid Services (CMS), while</p>

<p><input type="checkbox"/> Insert the standard subject injury language statement as appropriate to the research.</p> <ul style="list-style-type: none"> ○ If Sponsor requests a deviation in the language, please reach out to your Regulatory Specialist. 	<p>participating in the study and for as long as the sponsor is required by the government to report this information. The sponsor will not use this information for any other purpose.</p> <p>Must be included regardless of which language from above is used: CHLA and the sponsor have no plans to pay you or give you other compensation for injury. You do not give up your legal right to pursue a claim through the legal system by signing this form.</p>
<p>Instructions for HIPAA LANGUAGE</p>	<p>Corresponding HIPAA Language</p>
<p>Required on main consent forms, parental/guardian permission forms, and pregnant partner/subject consent forms.</p> <ul style="list-style-type: none"> • Do not add to assent forms. • For reasons of State law, remove any HIPAA language that is embedded in the main consent, parental/guardian, assent, addendum, or pregnant partner/subject consent form(s). • The separate CHLA HIPAA Research Authorization Form must be used to access, use, create or disclose PHI from CHLA medical records. Please be sure the Reviewing IRB understands this is a CHLA requirement. • The corresponding language can be added to or combined with the Confidentiality section (next section). <p><input type="checkbox"/> If the template consent form includes embedded HIPAA language, delete it and replace it with the following:</p>	<p>You will be asked to sign a separate form authorizing access, use, creation, or disclosure of health information about you.</p>
<p>Instructions Regarding CONFIDENTIALITY Language</p>	<p>Corresponding CONFIDENTIALITY Language</p>
<p>Required for main consent forms, parent/guardian permission and pregnant partner/subject consent forms.</p> <ul style="list-style-type: none"> • Do not add to assent forms. • The confidentiality language in the consent form must include language that allows the CHLA Institutional Review Board (IRB) and CHLA authorized individuals to review study data and records to monitor the study. 	<p><i>Suggested language:</i></p> <p>The research study team, CHLA Institutional Review Board (IRB) and CHLA authorized individuals, the study sponsor, and regulatory agencies such as the Food and Drug Administration (FDA), may have access to study data and records to monitor the study.</p>

<ul style="list-style-type: none"> • Please keep in mind that template consents may have Confidentiality language combined within the embedded HIPAA language. • Often Sponsor, or the Reviewing IRB, will have templated or study specific Confidentiality language. Please check with the IRB of Record first if Confidentiality language is missing/needed. <p>☐ If the form does have a dedicated Confidentiality section: Insert: 'CHLA Institutional Review Board (IRB) and CHLA authorized individuals' into the list of individuals/entities that may review the study data.</p> <p>☐ If the form does not have a dedicated Confidentiality section after removing HIPAA:</p> <ul style="list-style-type: none"> ○ Reach out to Sponsor or the IRB of Record to request study specific language. 	
<p>Instructions Regarding CA EXPERIMENTAL SUBJECT'S BILL OF RIGHTS (ESBOR)</p>	<p>Corresponding CA ESBOR Language</p>
<p>Required for main consent forms, and parental/guardian permission forms if the study is a "medical experiment".</p> <ul style="list-style-type: none"> • A "medical experiment" is defined as: "The severance or penetration or damaging of tissues of a human subject, or the use of a drug or device as defined in section 26009 of 26010 (of the Health and Safety Code), electromagnetic radiation, heat or cold, or a biological substance or organism, in or upon a human subject in the practice or research of medicine in a manner not reasonably related to maintaining or improving the health of such subject or otherwise directly benefitting such subject." • The CHLA IRB has interpreted this definition to include almost all interventional studies involving biomedical procedures, placebo controls, innovative therapy and/or normal volunteer subjects. • This statement can be combined with the HIPAA statement above, <u>if both apply.</u> 	<p>You will be given a copy of this consent form and the Research Participant's Bill of Rights to sign and keep.</p>

<p><input type="checkbox"/> Insert the following language to inform subjects that they will be given a copy of the California ESBOR to sign and keep, if applicable.</p>	
<p>Instructions Regarding CHLA INVESTIGATOR’S CONTACT INFORMATION</p>	<p>Corresponding Language</p>
<p>Required for main consent forms, parent/guardian permission forms, and pregnant partner/subject consent forms.</p> <ul style="list-style-type: none"> You can use the Reviewing IRB’s template language to convey this information, but it must include these required elements: <ul style="list-style-type: none"> How to contact the CHLA investigator with any questions, concerns or complaints about the research, How to contact the CHLA investigator in event of a research-related injury Assents should list how to reach the study team; however, language can vary. <p><input type="checkbox"/> Insert the applicable language if the reviewing IRB’s template does not convey the required information.</p>	<p>Language for research involving more than minimal risk: If you have questions, concerns, or complaints about the study, or think this research has hurt you or made you sick, talk to the CHLA research team at (XXX)-XXX-XXXX.</p> <p>Language for research that is minimal risk: If you have questions, concerns, or complaints about the study, or think this research has harmed you, talk to the CHLA research team at (XXX)-XXX-XXXX.</p>
<p>Instructions Regarding CHLA HSPP OFFICE CONTACT INFORMATION</p>	<p>Corresponding Language</p>
<p>Required for main consent forms, parent/guardian permission forms, and pregnant partner/subject consent forms.</p> <ul style="list-style-type: none"> The Reviewing IRB’s template language can be used to convey this information, but the CHLA HSPP office information must also be listed for questions about the research or subject rights and include these required elements: <ul style="list-style-type: none"> Questions, concerns or complaints about the research, and Questions about their rights as a research subject 	<p>Language to add to the consent form after the Reviewing IRB’s contact information:</p> <p>You may also call Children’s Hospital Los Angeles, Human Subjects Protection Program office at (323) 361-2265.</p>

<input type="checkbox"/> Insert the applicable language if the reviewing IRB's template does not convey the required information.	
Instructions the OPTIONAL PROCEDURES SECTION	Corresponding OPTIONAL PROCEDURES Language
<p>Required in the main consents, and parental/guardian permission forms when subjects must agree to optional procedures.</p> <ul style="list-style-type: none"> If there are optional procedures included in the research, subjects should provide their initials, not check marks, beside their decision. <p><input type="checkbox"/> Add to all main consent, and parental/guardian permission forms, when applicable.</p>	<p>Subjects should provide their initials, not check marks, beside their decision</p> <p>_____ Yes _____ No [Subject] [Add if minors 14 years and older are included]</p> <p>_____ Yes _____ No [Parent/Legal Guardian/Legally Authorized Representative (for children or adults unable to consent)]</p>
<p align="center">Instructions for SIGNATURE BLOCKS and Corresponding Language (combined below for readability)</p>	
<p>Signatures Please keep in mind the following information:</p> <ul style="list-style-type: none"> Do not include signature blocks that are not applicable to the study. Can use the Reviewing IRB's signature blocks, however, you must ensure that the appropriate signatures are captured. If any print lines, signature lines/blocks are missing, please add. Please keep in mind that although used interchangeably, Legally Authorized Representative (LAR) is not always the same as a Legal Guardian. If unsure, please discuss with the Reviewing IRB. Children who Become Adults: Children who reach the age of majority (per CA Law, i.e., age 18, married, joined the armed forces, legal emancipation) during study participation must be re-consented as adults. If the adult subject is incapable of providing consent, surrogate consent must be obtained per CA law.

Add the following section for documentation of a witness signature for every consent form.

SIGNATURE OF WITNESS (if applicable)

Your signature below indicates:

- You were present for the entire consent conference;
- The information in the consent document and any other written information was accurately explained to the subject and/or the subject's parent(s)/legal guardian(s)/[legally authorized representative, as applicable];
- The subject and/or the subject's parent(s)/legal guardian(s)/[legally authorized representative, as applicable] had an opportunity to ask questions and those questions were answered; and
- The subject and/or the subject's parent(s)/legal guardian(s)/[legally authorized representative, as applicable] voluntarily signed the consent/permission/assent form in your presence.

Print Name of Witness

Signature of Witness

Date

Assent Instructions and Corresponding Language (combined below for readability)

Information on Documentation of Assent

- Please keep in mind the following information:

Per CA law, assent is required for ages 7-17 and must be documented by the study team (see documentation insert language below).

Additionally, signatures by subjects on the appropriate forms **may be collected**, if the subject is physically able to sign. Otherwise, assent can be documented in a consenting note.

Age ranges for readability are determined by the IRB of Record (i.e. Simplified Assent: 7-11, 7-12, 7-13. Adolescent Assent: 12-17, 13-17, 14-17). To ease consent burden, Adolescents may sign on the Main consent, or the Parent/Guardian Permission form.

Assent from Children/Cognitively Impaired Adults: All subjects unable to consent are required to assent, unless the investigator determines that the capability of the subject is so limited that the subject cannot reasonably be consulted.

Children ages 7 to ~13: If assent is obtained, subjects must be given an assent information sheet.

Children ages ~14 to 17: If assent is obtained, subjects will sign the subject line on the main consent or parental/guardian permission form, unless the investigator determines that the subject is not capable of signing.

ASSENT INSTRUCTIONS

Add the following section and boxes when children and/or adults lacking the capacity to consent are subjects. Goes before the signature lines. Age ranges can vary based on the IRB of Record's determination. Example language below.

Assent Instructions: All subjects unable to consent are required to assent, unless the investigator determines that the capability of the subject is so limited that the subject cannot reasonably be consulted.

Subjects ages 7 to 13: If assent is obtained, subjects must be given a simplified assent form.

Subjects ages 14 to 17: If assent is obtained, have the subject sign this consent form, unless the investigator determines that the subject is not capable of signing.

Adults subjects who are not capable of providing consent: If assent is obtained, subjects must be given a simplified assent form, or the subject can sign this consent form.
